

Heavenly Soft[®]
DIS  SOLVETECH

Paper Towels

RESISTANT LIKE A HAND
TOWEL, DISSOLVABLE
LIKE TOILET PAPER

Resistant

**Minimizes
the risk
of clogs**

**Reduces
Maintenance
Costs**

1 PROBLEM

Instead of being thrown in the trash bin, sometimes paper towels are thrown into the toilet increasing the risk of clogging the drains.

2 SOLUTION

Heavenly Soft® Dissolvotech has the same performance of a conventional towel but will dissolve in water, reducing the risk of clogged pipes and septic trouble.

Flushability has been tested independently by IPS TESTING (Integrated Paper Services), and our Dissolvotech towels passed ALL 7 INDA tests for flushability (FG501-FG507) (complete test documentation is available on the Dissolvotech website)

3 BENEFITS

- Reduced risk of clogging due to incorrect towel disposal
- Reduced maintenance costs and inconveniences due to blockages
- Improved quality and customer satisfaction

4 AREAS OF USE

Because it dissolves in water, Dissolve Tech prevents the risk of pipe drainage clogs in any public facility restroom. Dissolve Tech is ideal for airlines, trains, cruise lines, boats, restaurants, office buildings, healthcare and manufacturing facilities.

Boats

Airplanes

Restaurants

Buildings

Trains

Manufacturing

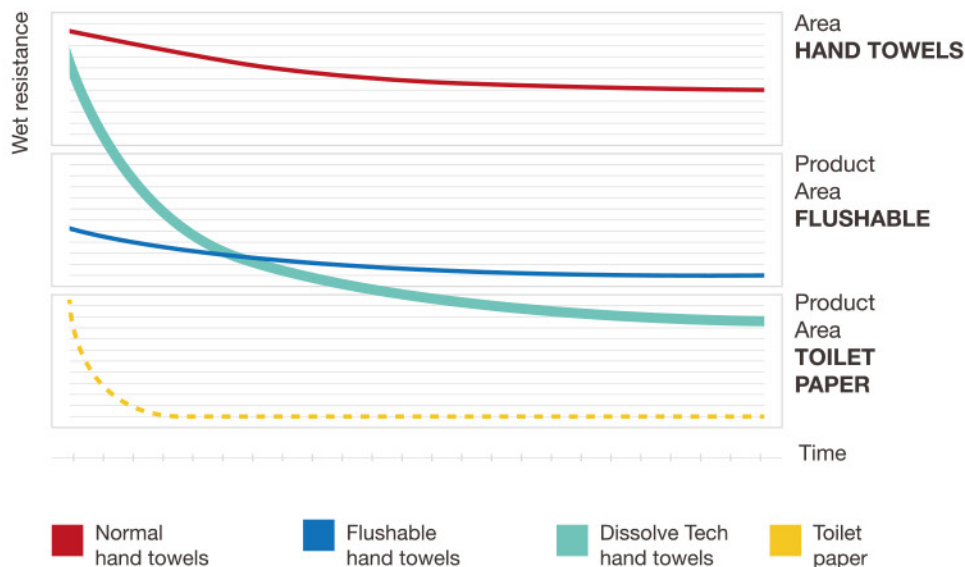

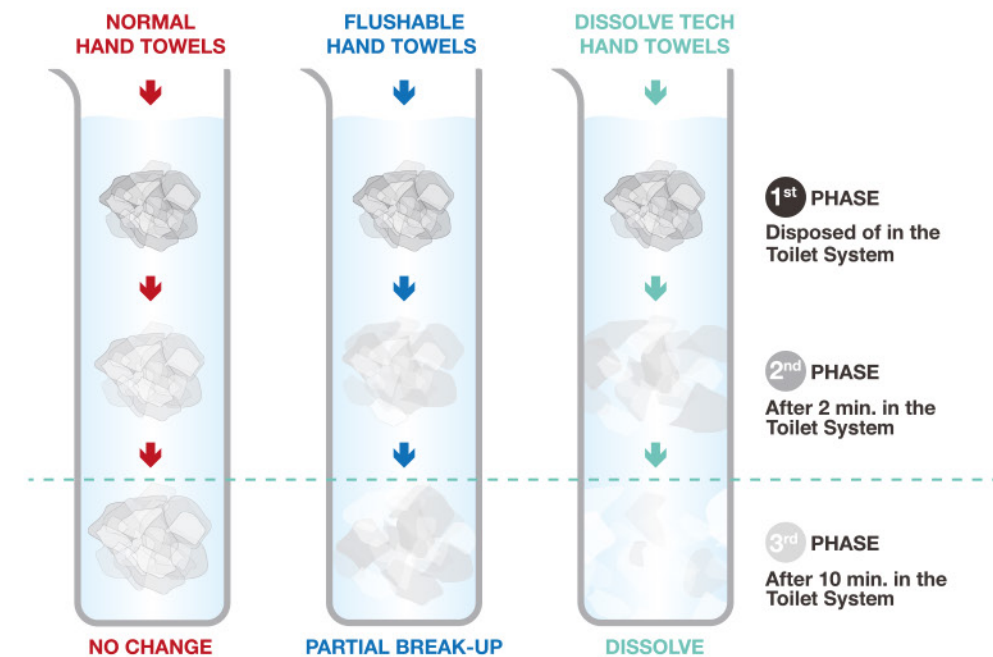

Problematic discharge systems

PRODUCT COMPARISON

The graph shows Dissolve Tech's wet resistance through time compared to other products in this market segment.

Dissolve Tech Towels are manufactured with Temporary Wet Strength technology, and have a very high dry resistance that ensures the same degree of strength and absorbency as standard paper hand towels during hand drying. When in contact with water, the towel's dry resistance breaks up, making Dissolve Tech similar to toilet paper, reducing the risk of pipe blockage.

Comparison between Dissolve Tech and other types of hand towels disposed of in the Toilet System:

PRODUCTS

Dissolve Tech paper hand towels are resistant and dissolvable. During use, Dissolve Tech behaves like a normal paper hand towel and with the same wet strength, providing great absorbency. Once used, if disposed of in the toilet system, the towel will dissolve minimizing the risk of clogging.

Multi-Fold Towels - White

- Folded towels provide continuous dispensing with exceptional quality.
- Manufactured with Temporary Wet Strength technology, the Dissolve Tech multi-fold towels have a very high dry resistance that ensures the same degree of strength and absorbency during hand drying as standard paper hand towels.
- Easy to dispense.

Item #	Sheets	Sheet size	Packs per case
410338	250	8.1" x 9.5"	16
410339	250	9.25" x 9.5"	16

Center Pull Towels - White

- Soft, strong and absorbent.
- Manufactured with Temporary Wet Strength technology, the Dissolve Tech center-pull towels have a very high dry resistance that ensures the same degree of strength and absorbency during hand drying as standard paper hand towels.
- Reduces cross-contamination when combined with our patented center pull towel dispenser since users only touch the towel they need.
- Towels are perforated to ensure one-at-a-time dispensing.

Item #	Ply	Sheets	Rolls per case
410334	2	600	6

Hardwound Roll Towels - White

- Hardwound roll towels offer more feet per roll, allowing for fewer roll changes and reduced maintenance costs.
- Manufactured with Temporary Wet Strength technology, the Dissolve Tech hardwound roll towels have a very high dry resistance that ensures the same degree of strength and absorbency during hand drying as standard paper hand towels.
- Provides effective hand drying with less paper waste.

Item #	Ply	Roll length	Rolls per case
410333	1	800'	6
